

1.2 Responsive Layouts & Grids

Composition and Visual Design

Jace Gifford

Overview

I further refined my wireframes for the Fitted app, applying a layout grid to all user flows in the previous iteration. I used the Bootstrap framework as a guide. I also set up rows at 8 px apart to ensure proper component placement and sizing within the layout.

Details

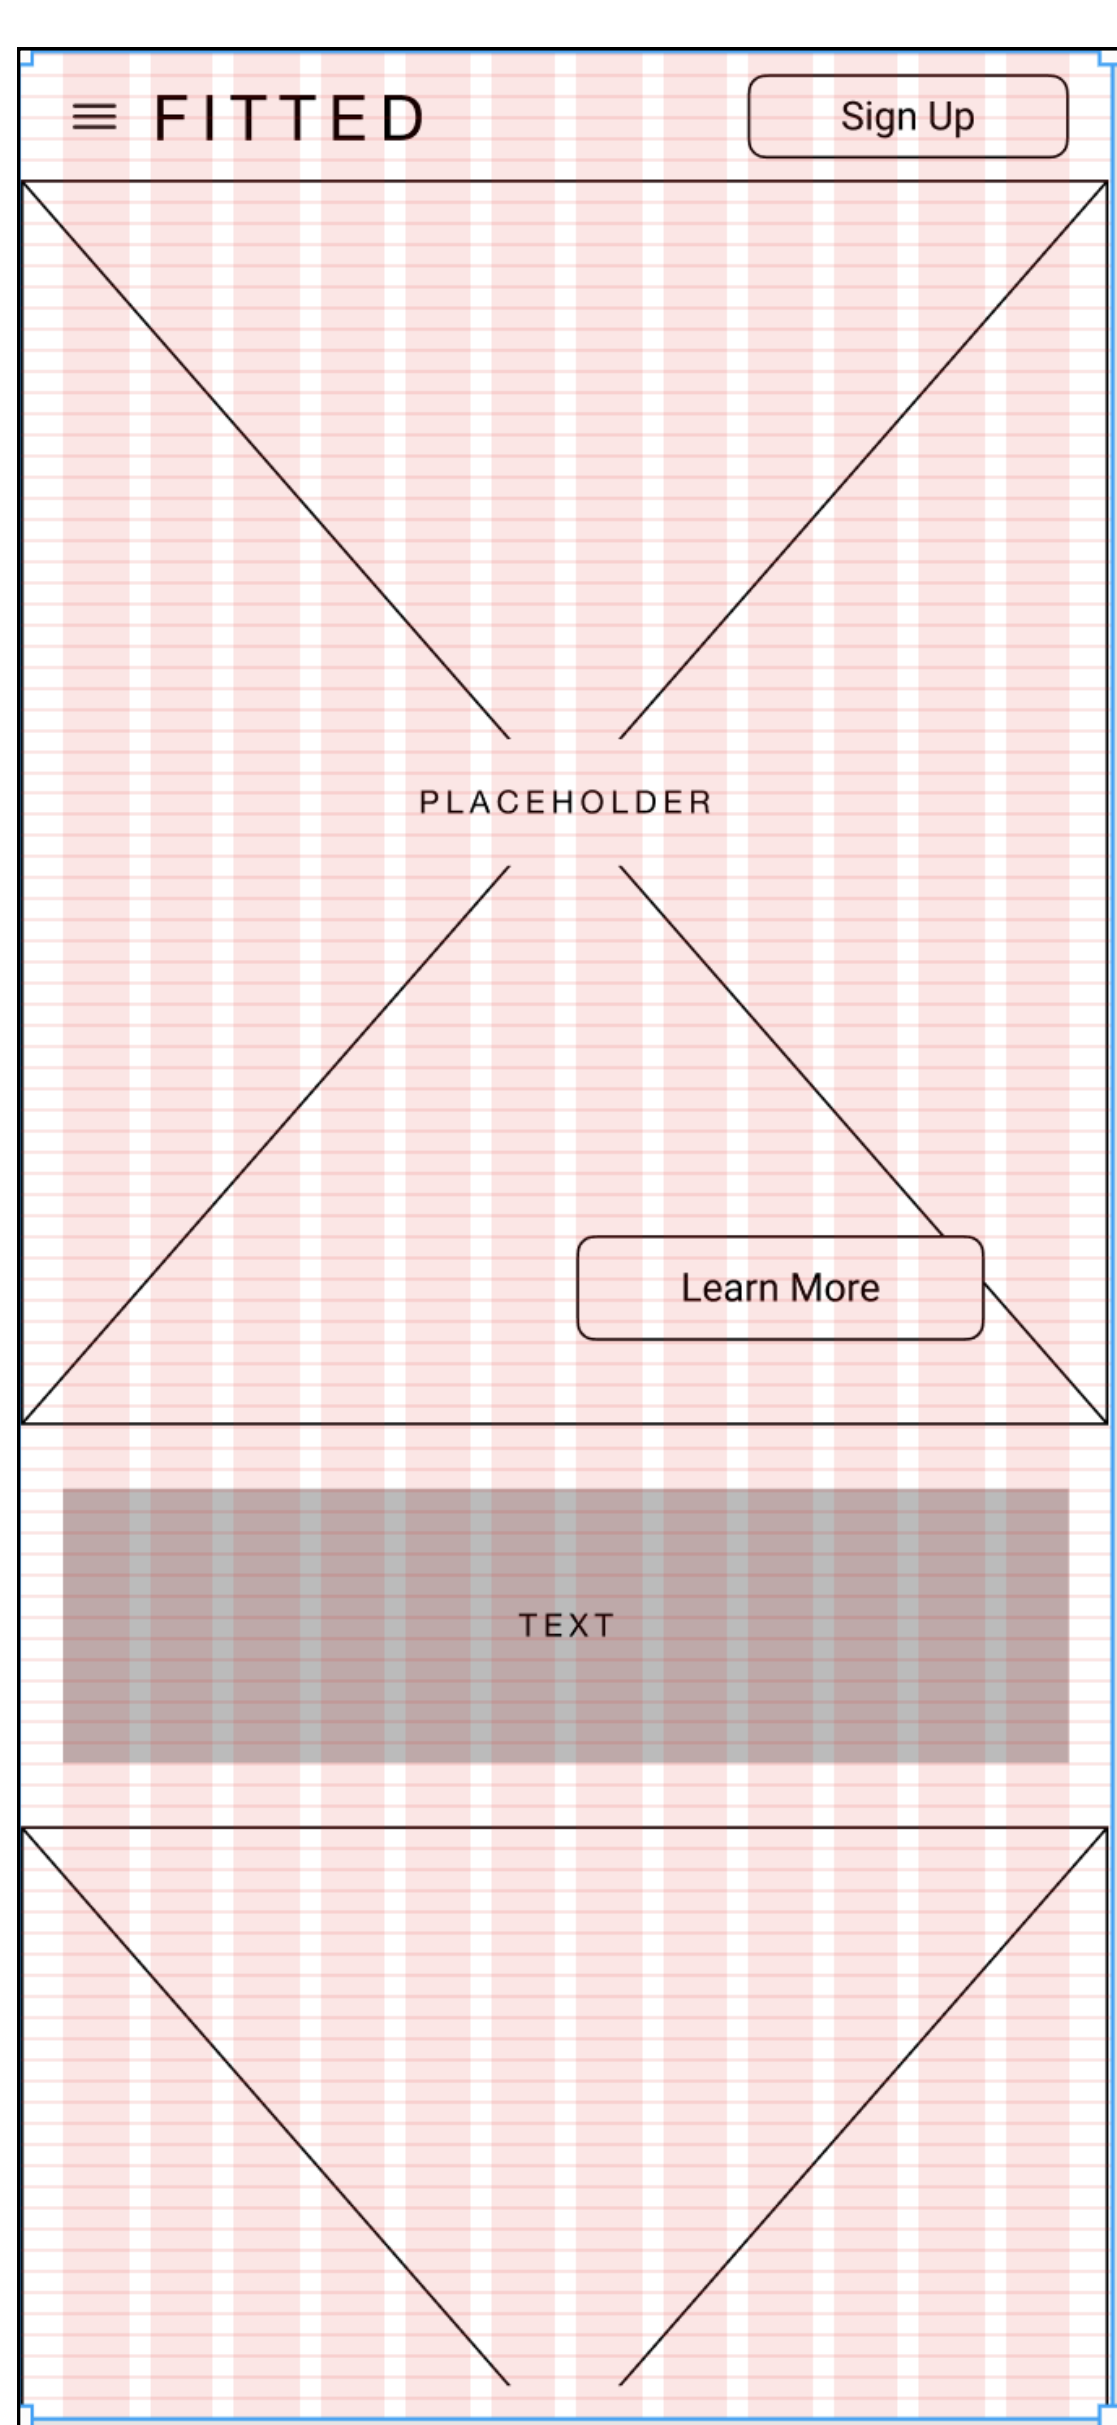

Device: iPhone 11 Pro Max (414 px x 896 px)

Columns: 12

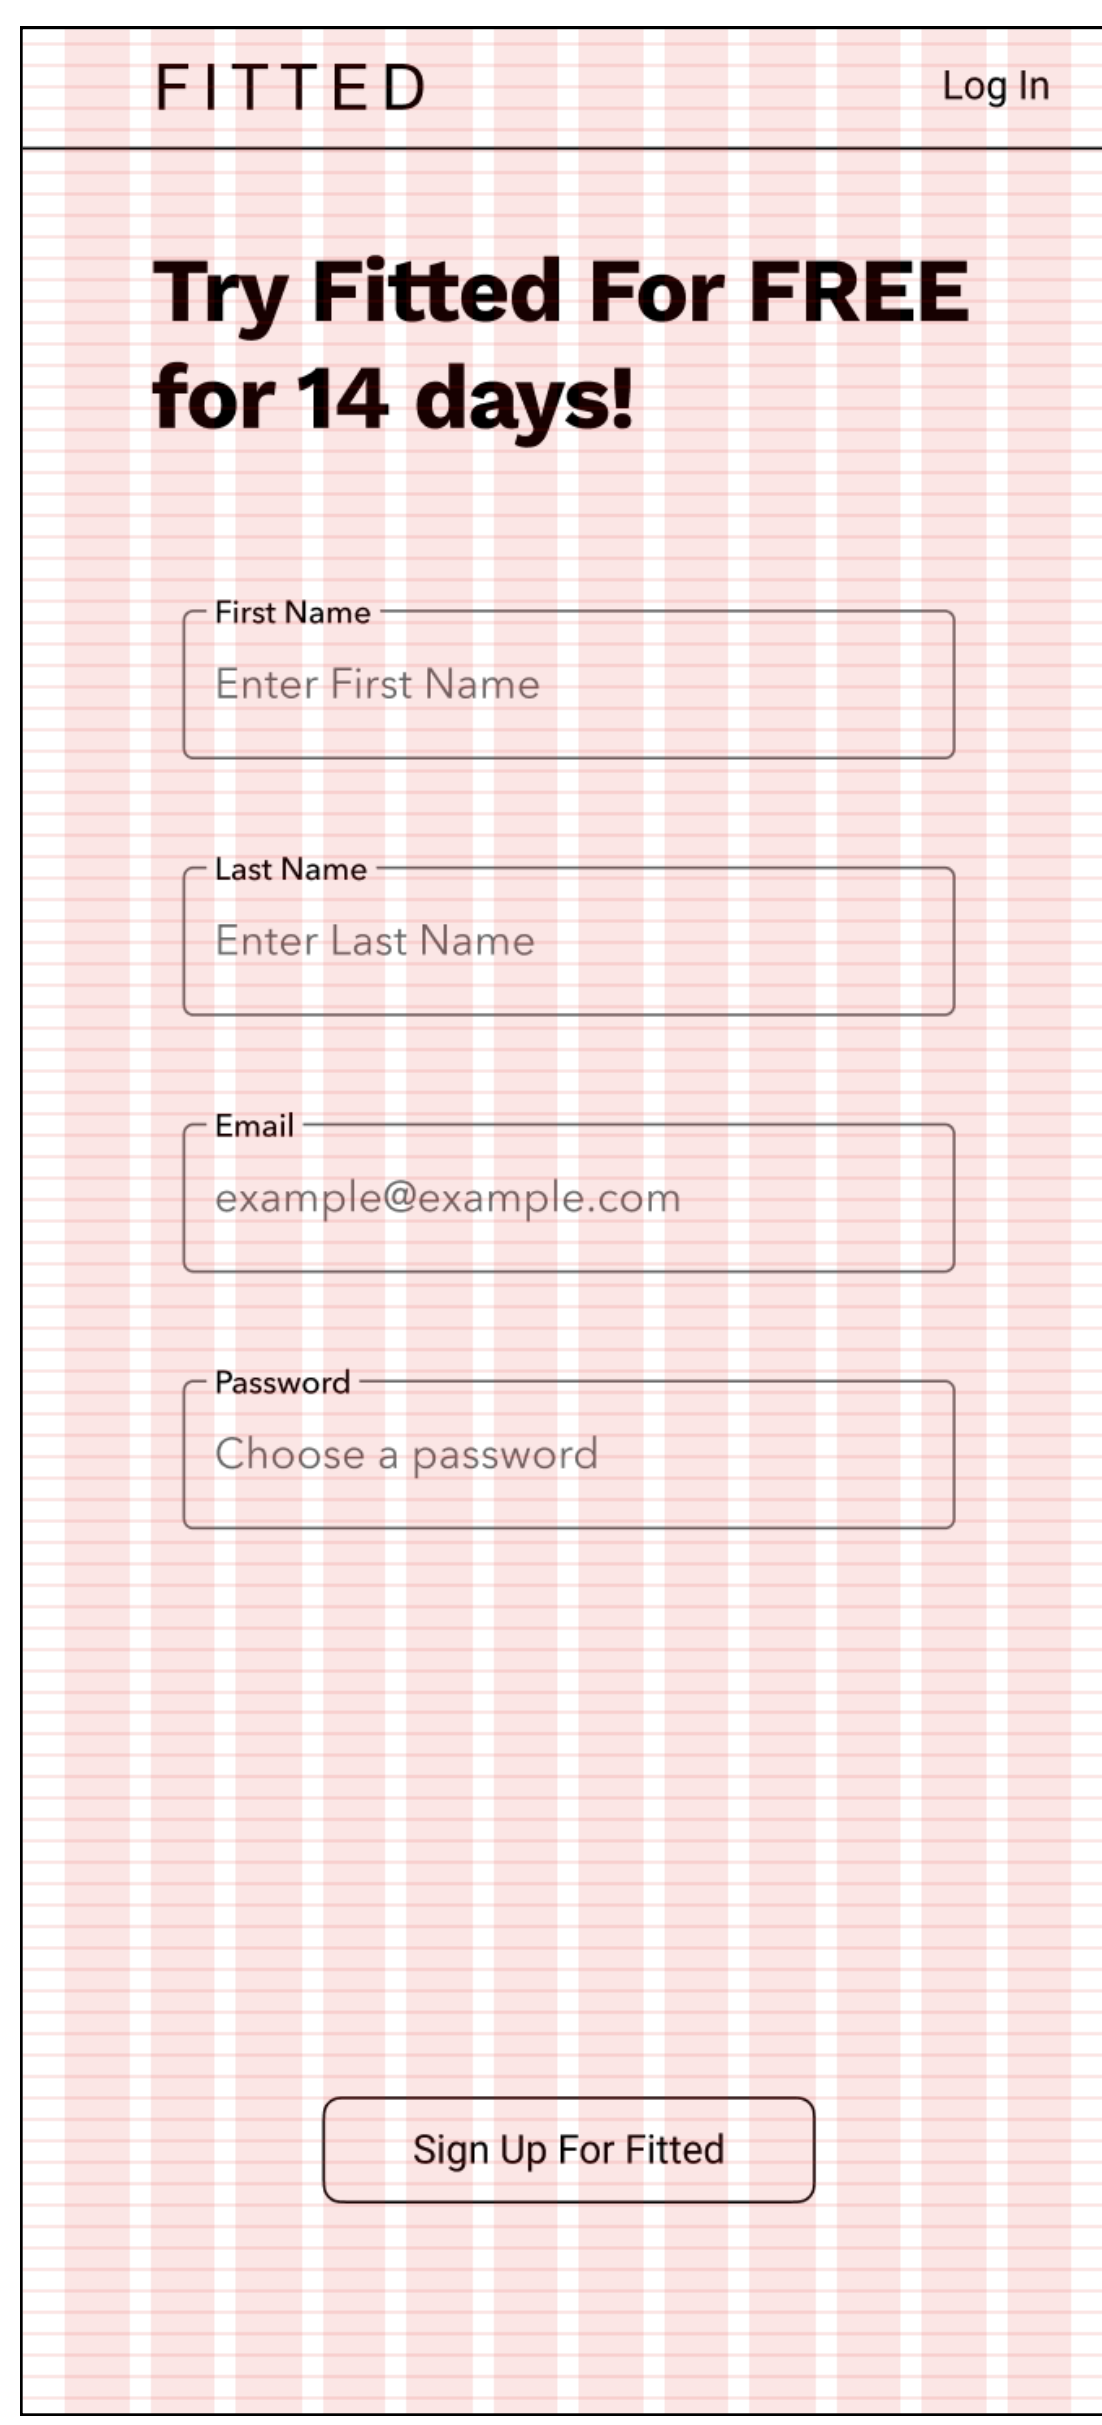

Column Width: Auto (responsive)

Gutter Width: 8 px

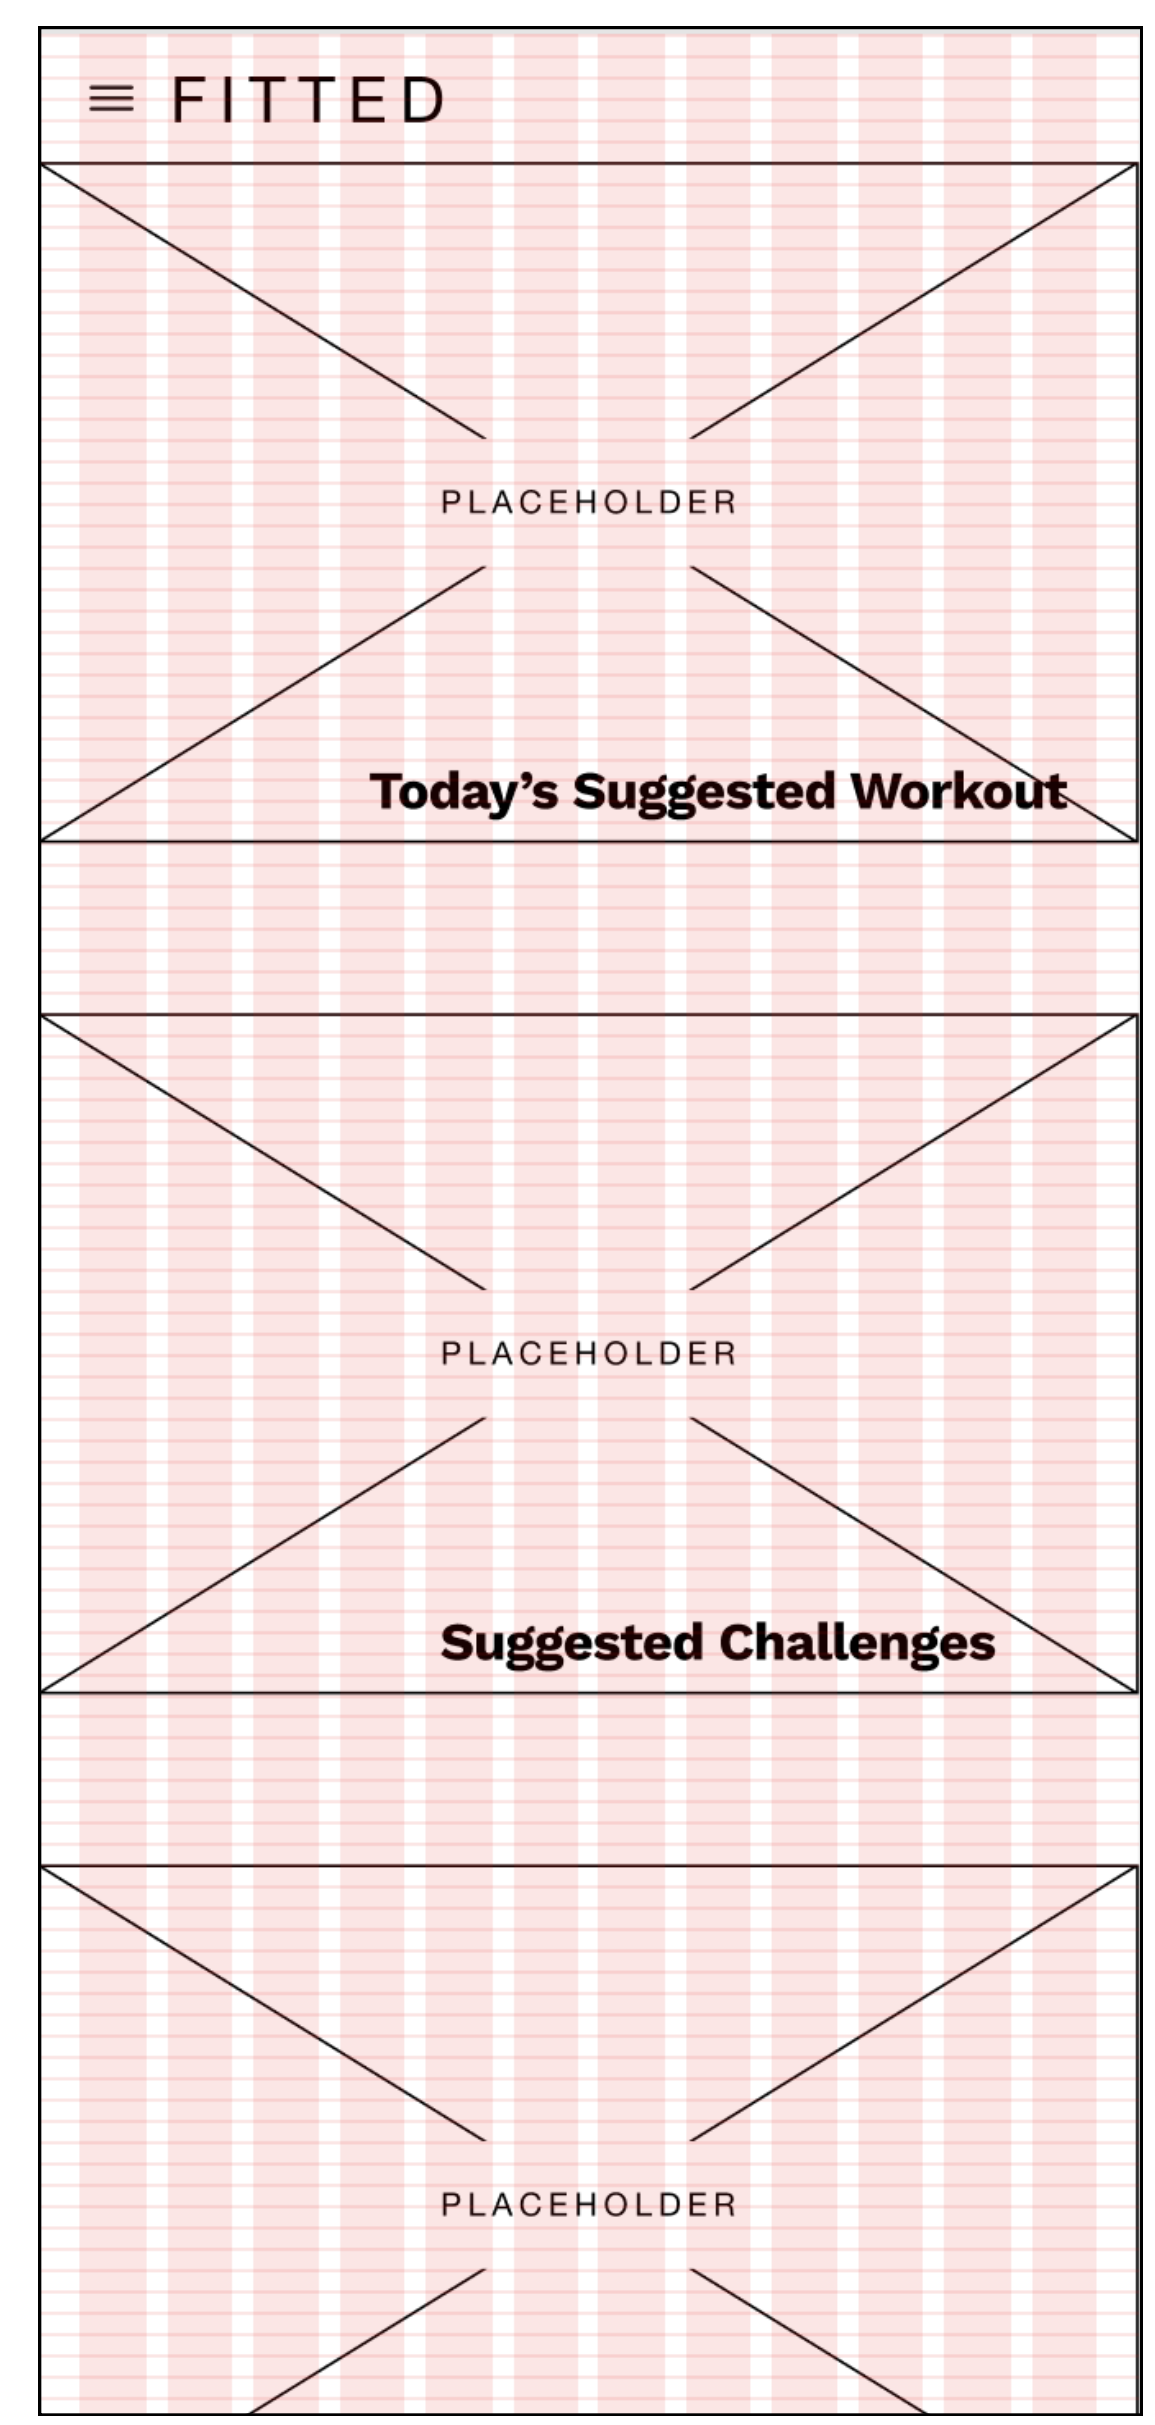

Margin Width: 16 px
